Re: Title V Air Facility Permit Renewal & Modification
Application ID 8-9908-00162/00043
High Acres Landfill and Recycling Center
Town of Perinton, Monroe County

Dear Mr. Kocian:

Enclosed is the renewed and modified Title V Air Facility Permit for the above referenced facility. The renewal and modification is effective June 7, 2006 and the permit will expire June 6, 2011. The modification includes construction and operation of four 2,233 horsepower reciprocating engines to combust gas from the existing permitted landfill area, construction and operation of a 181.7 MMBtu/hr HHV enclosed flare and deletion of an open candlestick flare.

The Department did not receive any additional comments from the United States Environmental Protection Agency (USEPA) on their review of the proposed permit. The 45 days allocated for USEPA's review ended on June 1, 2006. This permit has no changes from the Proposed Permit in response to comments received.

Please read the permit carefully and note that the validity of the permit is contingent upon compliance. No authority is granted by this permit to operate, construct, or maintain, any installation in violation of any law, statute, code, ordinance, rule, or regulation, of the State of New York, or any of its political subdivisions. You should become familiar with your responsibilities regarding modification and renewal of the Title V permit under 6 NYCRR Part 201-6.7.

Please contact me at (585) 226-5402 within 30 days of the postmark date on the envelope transmitting this permit if you identify any condition(s) that can not be met in full or if you have any questions concerning this permit. You may also contact Michele Kharroubi in the Division of Air Resources at 585-226-5312 if you have any questions regarding the modification or the permit itself.

Sincerely,

Lisa M. Porter
Environmental Analyst
